Interim and/or final payments may be withheld by the Corporation pending receipt and approval by the Corporation of these certifications, forms, and reports.

21. INSURANCE REQUIREMENTS

1. General:

- (a) The Contractor and each Subcontractor is responsible for his own insurance. This section explains the types, amounts, and limits of insurance coverage required of contractors doing work at the site of a project owned by the Housing Authority.
- (b) All required insurance shall be carried with financially responsible insurance companies and shall be kept in force until the contractor's work is accepted, and taken over by the Housing Authority.
- (c) Should any primary contractor, subcontractor, or sub-sub-contractor commence work of any nature at the project site without first having the required approved insurance in force, the Housing Authority shall immediately cause such work to be stopped until the infraction of contract requirements has been cleared. Any delay in contract performance which results from failure to comply with contract requirements shall be the sole responsibility of the primary contractor under whose supervision the infraction occurred.

2. Workmen's Compensation:

The Housing Authority shall require each contractor and subcontractor to carry Workmen's Compensation Insurance for all employees engaged in operations under the Construction Contract, and provide statutory Workers' Compensation benefits covering all of their employees with respect to whom death or bodily injury claims could be asserted, as required under Maryland Law, and Employer's Liability with limits of at least \$100,000 each accident, \$100,000 each employee disease, and \$500,000 disease policy limit;

3. Comprehensive General Liability:

The Housing Authority shall require each contractor to carry comprehensive general liability insurance, with bodily injury and property damage limits of not less than \$1,000,000 per occurrence (or such higher amount as the Housing Authority may require based on the trend in injury and/or death claims and damage to the property of others as a result of accidents) which may occur at the project site from operations under the Construction Contract and subcontracts. The insurance shall cover the use of all equipment, hoists, and vehicles on the project site.

4. Builders Risk:

- (a) **Extent of Coverage:** The Housing Authority shall require the contractor to carry Builders Risk (fire and extended coverage) Insurance on all work in place and/or material stored at the building site, including foundation and building equipment. The contractor installing equipment supplied by the Housing Authority, such as ranges and refrigerators, shall carry insurance on the equipment from the time he takes possession thereof until issuance of the final Certificate of Completion. Builders Risk Insurance need not be carried on excavations, piers, footings, or foundations until work on the superstructure is started. Builders Risk Insurance is not required to be carried on landscape work.
- (b) **Risks to Be Covered:** The Builders Risk Insurance policy or policies shall provide for fire and extended coverage insurance for the benefit of the contractor, his subcontractors, and the HCAAC as their interests may appear against loss by fire, lightning, windstorm, hail, explosion, riots, riot attending a strike, aircraft, vehicle, and smoke damage. In localities particularly susceptible to earthquake disturbances, additional Builders Risk Insurance against loss by earthquake may be included if desired. Policies shall furnish coverage at all times for the full cash value of all completed construction as well as materials or equipment in place and/or stored at the site, whether or not partial payment has been made by the HCAAC. In some localities, windstorm coverage under the usual form of Builders Risk policies does not attach until the exterior of the Building is finally closed with all windows and doors permanently in place. Such policies should be endorsed to cover buildings in all stages of construction or reconstruction. If specific buildings are accepted and taken over for occupancy by the HCAAC, the contractor may terminate his insurance at such time on such buildings and the HCAAC shall provide fire and extended coverage insurance on such buildings thereafter.
- (c) **Cancellation Provision:** The HCAAC require that each Builders Risk policy carried by the contractor provide for at least 30 days' prior notice by the contractor of insurance company before the cancellation becomes effective.

5. Automobile Liability:

Insurance with minimum limits coverage at \$1,000,000 each occurrence for property damage and \$1,000,000 each occurrence for bodily injury.

6. Excess Liability

Coverage in the form of an umbrella endorsement over all of the above in an amount of not less than \$2,000,000.

7. Evidence of Contractor's and Subcontractor's Insurance Coverage:

(a) Before a fly work begins, the contractor and each subcontractor are required to furnish the HCAAC with evidence (which may be in the form of a certificate) that the required Workmen's Compensation and comprehensive general liability insurance are in force. Before work has begun on the superstructure, the contractor is required to furnish similar evidence that the required Builders Risk Insurance is in force. Two copies of each certificate or other evidence are to be submitted. Upon request, one copy of each shall be sent to the HCAAC Project Manager.

(b) Insurance which expires before the contractor's work is accepted and taken over by the HCAAC is to be renewed and evidence thereof submitted to the HCAAC.

(c) If the Builders Risk policy is written on a reporting form, two signed copies of each report to the insurance company showing periodic value increases, shall be sent to the HCAAC by the contractor. Upon request, one copy of each report shall be sent to the HCAAC Project Manager.

8. Maintenance of Records:

The HCAAC shall maintain an insurance record of policies carried by each contractor and his subcontractors to make certain the required coverage's are kept in force as required by the contracts. The records shall contain, at minimum, the following information: name and address of insurance company, policy number, type of coverage, amount of insurance, effective date of policy, and the expiration date of the policy. In order that the HCAAC may insure that all required coverage's are kept in force, all insurance companies writing the contractor's policies shall issue a Certificate of Insurance and give the HCAAC 30 days' prior notice of any cancellation or material change in their policy.

22. FEDERAL LABOR REQUIREMENTS: OVERVIEW OF IMPORTANT POINTS

Federal Labor Standards apply to this Contract. These labor standards include Davis-Bacon and Related Acts. In brief, this means:

Wage rates paid to employees of the Contractor and employees of all subcontractors must be no less than those in the Department of Labor "Wage Determination" for this project.

The minimum wage rate for a trade not on the "Wage Determination" must be established in conjunction with the Corporation and HUD based on Department of Labor regulations.

Employees must be paid "time and a half for hours which exceed 40 in any one week, as mandated by the Contract Work Hours and Safety Standards Act (40 U.S.C. 327 – 333).

Salaries of all employees of the Contractor and subcontractors under this Contract shall be paid unconditionally and not less often than once a week without deduction or rebate on any account except only such payroll deductions as are mandatory bylaw or permitted by the applicable regulations issued by the Secretary of Labor pursuant to the Copeland Anti-Kickback Act of June 13, 1934 (40 U. S. C. 276c). The Copeland Act makes it a criminal offense to induce any person employed under this Contract to give up any part of the compensation to which he or she is entitled.

Weekly Certified Payroll Reports must be submitted by the Contractor and all subcontractors, as mandated by the Copeland Act.

A "working subcontractor" who performs trade work at the project site and has employees working at the site must submit weekly certified payroll reports on which he includes the hours he worked on the project. However, he may identify himself on those reports as "owner" and omit the wage rate he pays himself.

A "working subcontractor" who performs trade work at the project site and has no employees working at the site must be included on the General Contractor's weekly certified payroll reports. His trade, wage rate, and hours must be included. The terms "1099" or "subcontractor" may be used to indicate why no deductions are taken. Regardless of the bid amount of the subcontract, this subcontractor must actually be paid weekly and at a wage rate no less than that established by the Wage Determination or accepted additional classification procedures. If the subcontract provides for additional compensation, the amounts owed shall be paid by the General Contractor periodically and/or at the end of the project in response to invoices submitted by the subcontractor.

Contractors must use the "Wage Determination" in effect when the bids are opened for this project. The most recent "Wage Determination" available is included in the bid documents. If this "Wage Determination" is modified by the Department of Labor prior to the opening of bids, the new rates will apply if the modification occurs at a time when it is still feasible for the Corporation to notify potential bidders.
